 Subject: Fw: Commit Mode + synchlevel

Hello Bob and all the team.
 VTS is a large user of APPC and OTMA transaction, they would like to be able to see Commit Mode and Synchlvl information within the message prefix . This will allow them to understand what are the specific setting of APPC and OTMA messages (from a CM and Synchlvl perspective) and act consequently .
 Do you think we could enrich message information description to provide Commit Mode + synchlevel details ?

Thanks a lot in advance for your help.

Ciao
 Luigi

 Subject: Commit Mode + synchlevel

Ciao Luigi,

Un'informazione che mi era molto utile in BMC era il Commit Mode della tran in coda (che potevo vedere se sceglievo l'opzione di vista P=Prefix display).

Mi sembra che in QCF non ci sia niente di simile.

Si potrebbe richiede che anche questa info venga messa in risalto nel display, per favore?

Grazie
francesco
